

2008 Montana Wyoming Bank Salary & Fringe Benefit Survey

Results Report Available

The 2008 Montana/Wyoming Bank Salary & Fringe Benefit Survey has been compiled and is now available. Our new partnership with Eide Bailly allows for a much more comprehensive and “in-depth” survey we are positive you will find value in.

The Salary Survey allows a comprehensive view of the respondent banks and provides an average for each position being reported on. The survey includes information on salary and fringe benefits based upon information provided by financial institutions. You will find comparative data gathered from banks throughout Montana and Wyoming.

If your institution participated in the survey, you will receive a copy of the results directly from Eide Bailly. If you did not complete a survey this year, you may purchase a copy of the results at the rates below from BANC SERVE, Inc.
