The January 1, 2010, revisions to RESPA resulted in major changes to the Good Faith Estimate and the HUD-1/A settlement statements. While the revisions were completed on November 13, 2008, HUD has continued to release additional guidance in the form of Frequently Asked Questions. What began as a 16 page document has now grown to nearly 60 pages. The task of implementing the new provisions of Regulation X is extensive. During this training session we will discuss how Regulation X can be reconciled with how lenders in Montana write loans.

These sessions will contain important information and a thorough review of the new implications presented by **a representative of the Office of RESPA and Interstate Land Sales**, joining us all the way from Washington, DC.

Join us in Billings, Missoula or via Webinar
to receive RESPA updates as they apply to us in Montana.

Please pre-register for the session of your choice at
